EVENING OF OCTOBER 24TH • SMITH GENETICS, GIDDINGS, TX

LM She Moves 3L/136 Sells - Considered to be the most popular cow in the Simbrah breed will sell in her entirety at Simbrah Synergy II. She is the dam to the popular International Champion bulls, LMC RH Smith Red and Black Bullet and PRR Red Arrow. She has worked successfully with many different sires and can put your program on the map.

Bella Bella's Dam and Calves Sells - Smith Tysie 7054, the dam of Bella Bella (pictured), will sell in her entirety. This great female produced Bella, who won every major junior show in 2000 and 2007. Bella's first calf, and 2007's grandson, Evan was one of the sale toppers at Synergy I. Full sibs to Evan sell in Synergy II.

Smith Nu Approach - a semen interest in this polled 3/4 bull sells. He has some of the strongest and most balanced EPDs in the breed, as API and TI scores put him in at the top of the breed. Plus his calves prove his strength as a sire. Total outcross bull for the breed. This is the first semen to sell. Last year's high selling bull and female were sired by Nu Approach.

OFFERING 100 LOTS OF ELITE SIMBRAH CATTLE

Sale lineup includes herd sires and herd sire prospects, foundation donors, breds, pairs and fancy show prospects destined for greatness. Show prospects purchased in this sale will be transferred by November 1 ownership deadline.

Offering also will have a few select Simmental lots.

Weekend will include educational seminar, Synergy Showcase, as well as sales talk and skillathon competitions for juniors.

Juniors with cattle from sale participants are eligible for the \$15,000 Synergy Showcase. Details in the the sale book at www.simmgene.com or www.smithgenetics.com
