The structural correctness and phenotype this bull possesses is ideal for the most selective cattleman. Trouble Maker is rugged, loose hided, heavy muscled, has thickness throughout, takes a long smooth stride with ideal foot size, large testicles, clean neck and an excellent sheath. He is sired by the breed great, NF Smith Sargeant and out of a leading donor at Reavis Farms, who has a picture perfect udder and excels in femininity. He is a full brother to Smith RFI Refreshing, donor in the Smith and Reavis programs. Check out his EPDs and note his API of 82 and TI of 56, ranking him in the top 15% and 10% of the breed, respectively. Watch for his calves and the direction they will take the breed.

Smith Nu Approach

ASA# 2344033 · Polled 3/4 Simbrah

JDJ Berthas Big Mac 029K	3C Pasque 8773
	PSF Bertha 460
Smith New Approach	Smith Trendsetter
	Reina Del Camino X011

Total outcross bull for the breed and definitely a perfect choice for mating to all the cattle with Powerhouse and Sargeant lineage. You won't find a bull with more guts and middle section and he strides across the pasture as smooth as a cat. His ideal frame size and ease of keeping are major attributes that will have a positive influence in our breed. His EPDs speak for themselves. Note when analyzed his API of 88 and TI of 56, rank in the top 4% for the Simbrah breed. He is also backed by a Smith Trendsetter daughter and they are noted for ideal teat size and udder structure with lots of fertility. Nu Approach will direct the breed into a positive future.
